Artech East Africa Group was started way back in 2013 to offer customers an alternative to the elusive credit from the mainstream financial institutions, by way of lending to select individuals mainly in the Banking Industry.

## **Mandate**

Our mandate remains focused on the fulfillment of the Group's vision and mission and in particular meet the objectives (as outlined- in the bylaws) in accordance with the members' expectation.

## **Vision**

To be an outstanding organization in providing timely, relevant and competitive financial and business solutions.

## **Mission**

To empower our members by providing efficient. Innovative and competitive financial products and services to supply in the market.

It is without a doubt that for any keen investor, the next growth frontier is in Africa. As such, the African market presents a huge and attractive investment opportunity for investors seeking alternative middle to long-term returns. Despite the investments market in Africa having high and stable returns, only a few institutional players serve the market. Artech East Africa Group is therefore focused on delivering alternative high yielding returns in these markets, while providing the best client service and always protecting our clients' interests. We offer an alternative High yielding investment solution mainly to high net worth individuals, Groups (Chamas) and Corporates who are interested in investment solutions that offer superior returns. We do this through our structured product, The ARTECH High Yield Fund (CHYF).

**ARTECH HIGH YIELD FUND (AHYF)**

Is an, Investment Scheme that has a high allocation towards investment in interest bearing assets, which have an ability to deliver higher returns than those from the traditional assets. The investment objective of AHYF is both capital gain as well as preservation. To achieve this, the Fund's objective is to offer alternative solutions that outperform the income yields available from the traditional investments.

**Key Features:**

Artech high yield fund is Structure in Packages and this will Help any investor at any level to enjoy the high yield Rates offered in the Market.
